

WINNEBAGO

Product Information & Data Sheet

Winnebago is a real tumbled limestone thin veneer with neutral tones. The stone has shades of gold, grey, white, and cream. Its natural exterior showcases tones of grey and gold, while the tumbling unveils interior tones of white and cream.

Winnebago is categorized into the mosaic or webstone style due to the irregular pieces. But, the stone offers flexibility over the final appearance. Depending on the design criteria, Winnebago can be installed in a more linear fieldedge fashion with some horizontal courses of stone. Winnebago tumbles well due to its naturally rough texture. The tumbling process smooths the sharp edges while preserving the natural gold and cream tones.

Flats Dimensions

Heights: 4" - 12"
Lengths: 4" - 18"
Depths: ¾" - 1-½"
Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 4" - 12"
Lengths: 3"-5" x 6"-12"
Depths: ¾" - 1-½"
Weight: 20 lb. per linear foot
Angle: 90

Stone Characteristics

Colors: Gold Tones, Natural Tones
Style: Mosaic
Finish: Tumbled

Packaging

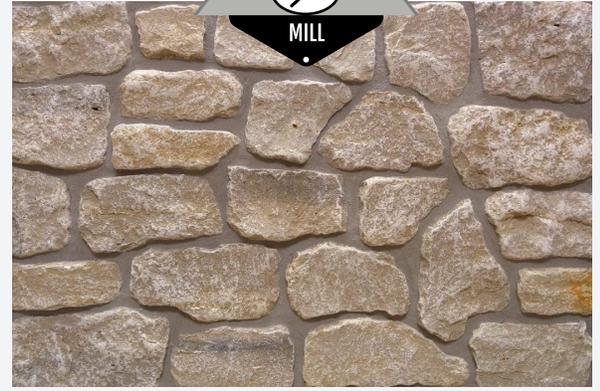

Sold as loose pieces.
Flat Pallet: 150 square feet
Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
