ATCHISON

Product Information & Data Sheet

Atchison is a neutral grey dimensional ledgestone style thin stone veneer. The stone is especially suited for large-scale applications due to the semi-monochromatic tones that will not appear busy over large surfaces. Upon request, we are able to add a splash of color if desired. Atchison is a split back or natural back product and has not been sawn on the back with a diamond blade. The split back will have no impact on the installation or final appearance. Atchison is created using a gang or multi-blade saw where full sheets of stone are fed in one side and consistent 2", 4", and 6" strips are produced.

Flats Dimensions

Heights: 1" - 6"
Lengths: 4" - 12"
Depths: ¾" - 1-½"
Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 1" - 6"
Lengths: 3"-5" x 8"-12"
Depths: ¾" - 1-½"
Weight: 20 lb. per linear foot
Angle: 90

Stone Characteristics

Colors: Grey Tones
Style: Dimensional Ledgestone
Finish: Natural

Packaging

Sold as loose pieces.
Flat Pallet: 150 square feet
Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

Installation

Natural thin stone veneer installation information is available on our website:
