

ATCHISON

Product Information & Data Sheet

Atchison is a neutral grey dimensional ledgerstone style thin veneer. The natural stone has consistent 2", 4", and 6" heights with semi-monochromatic tones.

Atchison is created using a gang or multi-blade saw where full sheets of stone are fed in one side and consistent height strips are produced.

Atchison is well suited for modern design and large-scale applications. The dimensional ledgerstone style and neutral tones create a visually appealing modern and orderly application on large surfaces. Upon request, we can add a splash of color by blending other stones in the mix. Atchison is a split back or natural back product and has not been sawn on the back with a diamond blade. The split back will have no impact on the installation or final appearance.

Flats Dimensions

Heights: 1" - 6"
Lengths: 4" - 12"
Depths: ¾" - 1-½"
Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 1" - 6"
Lengths: 3"-5" x 8"-12"
Depths: ¾" - 1-½"
Weight: 20 lb. per linear foot
Angle: 90

Stone Characteristics

Colors: Grey Tones
Style: Dimensional Ledgerstone
Finish: Natural

Packaging

Sold as loose pieces.
Flat Pallet: 150 square feet
Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

Natural stone varies in color, shape and veining from piece to piece. Photos used are meant to be as accurate as possible in depicting the product. Photos of stone are meant to give a general idea but should not be used for exact color matching.

LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

Installation

Natural thin stone veneer installation information is available on our website:
