

AUGUSTA

Product Information & Data Sheet

Augusta is a grey and earth tone real stone veneer in the ledgestone style. The thin stone is a blend of split face and bedface pieces excavated from a single quarry. The split face pieces are the grey interior part of the stone, whereas, the browns and tan pieces come from the bedface that has been exposed to the elements for millenia. Augusta falls into the ledgestone style due to the smaller heights of the individual pieces. Although it makes for a more labor-intensive installation, Augusta looks wonderful with a drystack tight fit installation. The stone showcases the right balance of subtle color variation to look visually appealing but not overwhelming or busy.

Flats Dimensions

Heights: 1" - 5"

Lengths: 4" - 12"

Depths: ¾" - 1-½"

Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 1" - 5"

Lengths: 3"-5" x 6"-12"

Depths: ¾" - 1-½"

Weight: 20 lb. per linear foot

Angle: 90

Stone Characteristics

Colors: Earthy Browns, Grey Tones

Style: Ledgestone

Finish: Natural

Packaging

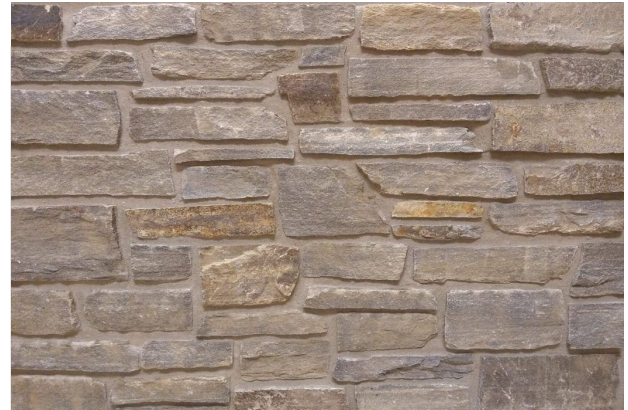

Sold as loose pieces.

Flat Pallet: 150 square feet

Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

Installation

Natural thin stone veneer installation information is available on our website:
