

# CALICO

## Product Information & Data Sheet

Calico is a colorful dimensional ledgestone style real stone veneer. The stone is sawn to three specified heights that are cut specifically to be drystacked (a tight-fit mortarless installation). Calico has a beautiful blend of natural colors with dark and light greys contrasting against tan and brown tones. The thin stone veneer contains a mix of the faces of the stone including the splitface (interior), bedface (top and bottom) and seamface (side exposed to a natural crack in the ground). The color and texture differences from the mix of faces add beauty and character to this natural stone veneer. Calico is a premium natural stone veneer that we import from overseas. This stone is in stock and ready to ship.

### Flats Dimensions

Heights: 1" - 6"

Lengths: 4" - 12"

Depths: 3/4" - 1-1/2"

Weight: 13 - 15 lb. per square foot

### Corner Dimensions

Heights: 1" - 6"

Lengths: 3"-5" x 8"-12"

Depths: 3/4" - 1-1/2"

Weight: 20 lb. per linear foot

Angle: 90

### Stone Characteristics

Colors: Earthy Browns, Gold

Tones, Grey Tones

Style: Dimensional

Ledgestone

Finish: Natural

### Packaging

Sold as loose pieces.

Flat Pallet: 150 square feet

Corner Pallet: 50 linear feet

### Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

### LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

### Installation

Natural thin stone veneer installation information is available on our website:
