

NICOLET

Product Information & Data Sheet

Nicolet is a natural granite thin stone veneer in the ledge stone style with dark tones. The pieces of thin stone are low height and intended to be laid in a linear fashion. Nicolet's stones are slightly more irregular and have a coarser texture than most of our other ledgestone options. The color of the stone is predominately dark grey with hints of gold and brown. Each individual piece of stone has been sawn on the back with a diamond blade to a thickness of approximately 1". Nicolet is a premium quality real stone veneer we import from overseas. We have 100 square foot pallets ready to ship today.
