

SPREEWALD

Product Information & Data Sheet

Spreewald natural stone veneer is a unique take on natural moss rock. The stone starts as hand-picked pieces of natural moss rock that are then sawn on all four sides to make rectangles. Although the stone has sawn edges, the pieces are not sawn to specific sizes. The various size rectangles allow the mason more flexibility to add their own creative touch to the stone project. Spreewald thin stone veneer has a full range of earth tones and a rustic feel. The lichen growing on the stone itself is ultimately what sets it apart from the crowd.

Flats Dimensions

Heights: 2" - 12"

Lengths: 4" - 18"

Depths: 3/4" - 1-1/2"

Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 2" - 8"

Lengths: 3"-5" x 8"-12"

Depths: 3/4" - 1-1/2"

Weight: 20 lb. per linear foot

Angle: 90

Stone Characteristics

Colors: Earthy Browns

Style: Castle Rock

Finish: Natural

Packaging

Sold as loose pieces.

Flat Pallet: 150 square feet

Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

Installation

Natural thin stone veneer installation information is available on our website:
