

BERKLEY

Product Information & Data Sheet

Berkley is a castle rock style natural stone veneer with a full range of grey tones. The stone is a castle rock or square-rec style that is split on all four sides. The colors range from very light grey to almost black with an occasional hint of brown from natural mineral staining.

In addition to being split on all four sides, Berkley is a split back product. Splitting the back of the stones is only possible due to the unique and consistent layering of the raw stone. We can reduce our production costs by splitting rather than sawing the backs of the stone. We pass on the savings making Berkley one of the most affordable premium natural stone options.

Flats Dimensions

Heights: 2" - 12"
Lengths: 4" - 18"
Depths: ¾" - 1-½"
Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 2" - 8"
Lengths: 3"-5" x 8"-12"
Depths: ¾" - 1-½"
Weight: 20 lb. per linear foot
Angle: 90

Stone Characteristics

Colors: Grey Tones, Natural Tones
Style: Castle Rock
Finish: Natural

Packaging

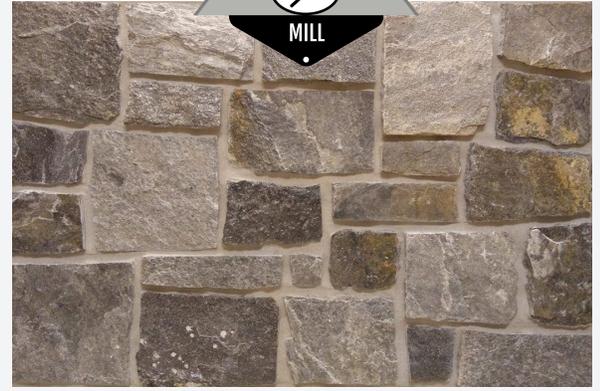

Sold as loose pieces.
Flat Pallet: 150 square feet
Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
