

# BONAVISTA

## Product Information & Data Sheet

Bonavista is a warm and colorful mosaic-style natural stone veneer. The irregular shapes create a spiderweb-like pattern when installed. Bonavista's variety of colors come from the abundance of minerals within the top few feet of the quarry. The minerals are washed in by rainwater over the years and their concentrations decrease the deeper you go into the quarry. Bonavista is excavated exclusively from the top three feet of the quarry. It is a split back product and has not been sawn on the back with a diamond blade. The split or natural back will have no impact on the installation or final appearance.

### Flats Dimensions

Heights: 4" - 12"

Lengths: 4" - 18"

Depths: 3/4" - 1-1/2"

Weight: 13 - 15 lb. per square foot

### Corner Dimensions

Heights: 4" - 12"

Lengths: 3"-5" x 6"-12"

Depths: 3/4" - 1-1/2"

Weight: 20 lb. per linear foot

Angle: 90

### Stone Characteristics

Colors: Gold Tones, Grey Tones

Style: Mosaic

Finish: Natural

### Packaging

Sold as loose pieces.

Flat Pallet: 150 square feet

Corner Pallet: 50 linear feet

### Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

### LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

### Installation

Natural thin stone veneer installation information is available on our website:
