

# CARLISLE

## Product Information & Data Sheet

Carlisle is a multicolored two-tone real thin stone veneer. The natural stone is a castle rock style with medium to large semi-irregular blocky pieces. It showcases a blend of light and dark grey pieces with an occasional tan or gold colored piece in the mix. Carlisle is a split back or natural back product and has not been sawed on the back with a diamond blade. The natural back will have no impact on the final appearance or installation. Due to the natural layering of the quarry, we do not need to saw the stone into thin veneer. The reduced production cost makes Carlisle a cost-effective premium thin stone veneer at a very competitive price point.

### Flats Dimensions

Heights: 2" - 12"

Lengths: 4" - 18"

Depths: 3/4" - 1-1/2"

Weight: 13 - 15 lb. per square foot

### Corner Dimensions

Heights: 2" - 8"

Lengths: 3"-5" x 8"-12"

Depths: 3/4" - 1-1/2"

Weight: 20 lb. per linear foot

Angle: 90

### Stone Characteristics

Colors: Grey Tones

Style: Castle Rock

Finish: Natural

### Packaging

Sold as loose pieces.

Flat Pallet: 150 square feet

Corner Pallet: 50 linear feet

### Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

### LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

### Installation

Natural thin stone veneer installation information is available on our website:
