

MOSHOLU

Product Information & Data Sheet

Mosholu is a classic ashlar style natural thin stone veneer. The thin stone is a blend of both the split faces and natural faces of the quarried slabs of raw stone. Mosholu features a range of blue-greys as well as a small range of cream colors. Its diverse range of sizes, textures, and shapes give it an authentic old-world feel. Mosholu is an Algonquin name meaning "smooth stones" or "small stones". The stone is typically installed with a mortar joint but can also be drystacked if desired. This is an imported product that we have in stock and ready to ship.

Flats Dimensions

Heights: 2" - 8"
Lengths: 4" - 18"
Depths: ¾" - 1½"
Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 2" - 8"

Colors: Gold Tones, Grey Tones, Natural Tones
Style: Ashlar
Finish: Natural

Packaging

Sold as loose pieces.
Flat Pallet: 150 square feet
Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
