

RHINELANDER

Product Information & Data Sheet

Rhinelander is a natural stone veneer sawn into consistent 6" x 30" panels. The larger pieces of stone are white/light grey and have a sandblasted face. The sandblasted finish gives them just a hint of texture as the pieces are otherwise flat and consistent. Each panel of stone has been sawn on all six sides making perfectly clean and squared edges on the pieces. Rhinelander is installed in a running bond or course height pattern meaning you can make out each row or "course" of stone. This installation style is similar to how brick is installed.

Rhinelander is a great choice for large commercial projects as the stone installs quickly and easily. This is a premium quality imported product.

NOTE: 90-degree corners are not available, on the corners overlap and interlock the flat pieces.

Flats Dimensions

Heights: 6"
Lengths: 4" - 16"
Depths: $\frac{3}{4}$ " - 1- $\frac{1}{2}$ "
Weight: 13 - 15 lb. per square foot

Stone Characteristics

Colors: Natural Tones
Style: Dimensional
Finish: Natural

Packaging

Sold as loose pieces.
Flat Pallet: 150 square feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
