

BOWERY

Product Information & Data Sheet

Bowery is a real stone veneer sawn into consistent 6"x30" panels. The faces of each stone are flat and consistent. They have a soft texture from the light sandblast finish. The panels have been sawed on all six sides to create perfectly clean lines.

Bowery is a great choice for modern design due to the consistency of the stone and the clean lines. Although Bowery is on the higher end of costs due to all the steps involved in production, it is one of the least expensive stones to install.

Bowery is a premium-quality sandstone that we import from overseas. NOTE: 90-degree corners are not available; on the corners overlap and interlock the flat pieces.

Flats Dimensions

Heights: 6"

Lengths: 4" - 16"

Depths: ¾" - 1-½"

Weight: 13 - 15 lb. per square foot

Stone Characteristics

Colors: Grey Tones, Sky Tones

Style: Dimensional

Finish: Natural

Packaging

Sold as loose pieces.

Flat Pallet: 150 square feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
