

ENNIS

Product Information & Data Sheet

Ennis is a beautiful darker tone natural stone veneer. This thin veneer has irregular shapes creating the mosaic or web-like pattern. Ennis showcases the natural variation of colors a single quarry can produce. The colors range from medium to dark blue-greys with subtle creams and browns. The individual pieces of stone also come in a variety of sizes allowing your mason to create a unique pattern. Ennis is a premium quality stone that we import from overseas. There is no quarry in the United States that produces stone with the unique qualities of Ennis. We have pallets of Ennis in stock at our warehouse and ready to ship today.
