

BRANSON

Product Information & Data Sheet

Branson is a classic brown and tan castle rock style real stone veneer. The stone gets its earth tones from natural mineral staining between the layers of sandstone. The individual pieces are rectangles of varying sizes. A hydraulic splitter is used to break or snap (name given due to the sound it makes) the sheets of stone into smaller and usable rectangles. The snapped or broken edge retains the natural look. Blocky pieces like Branson are referred to as squares and recs on the east coast. Branson is a premium quality imported stone. We have 100 square foot pallets in our warehouse available and ready to ship.

Flats Dimensions

Heights: 2" - 12"

Lengths: 4" - 18"

Depths: ¾" - 1-½"

Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 2" - 8"

Lengths: 3"-5" x 8"-12"

Depths: ¾" - 1-½"

Weight: 20 lb. per linear foot
Angle: 90

Stone Characteristics

Colors: Earthy Browns

Style: Castle Rock

Finish: Natural

Packaging

Sold as loose pieces.

Flat Pallet: 150 square feet

Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

Installation

Natural thin stone veneer installation information is available on our website:
