

DANBURY

Product Information & Data Sheet

Danbury is a colorful take on modern dimensional ledgerstone style natural thin veneer. The thin veneer consists of three heights: 2", 4", and 6". The pieces have a sawed top and bottom and are intended to be installed in a tight fit or drystack method. Danbury's pieces have random lengths and natural edges. The stone is a split back product; it has not been sawn on the back with a diamond blade. This is a result of the natural layering of the quarry at approximately 1". The natural back will have no impact on the installation or final appearance. This product may have an extended lead time.

Flats Dimensions

Heights: 1" - 6"
Lengths: 4" - 12"
Depths: ¾" - 1-½"
Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 1" - 6"
Lengths: 3"-5" x 8"-12"
Depths: ¾" - 1-½"
Weight: 20 lb. per linear foot
Angle: 90

Stone Characteristics

Colors: Grey Tones, Natural Tones
Style: Dimensional Ledgerstone
Finish: Natural

Packaging

Sold as loose pieces.
Flat Pallet: 150 square feet
Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

Installation

Natural thin stone veneer installation information is available on our website:
