

# LOWELL

## Product Information & Data Sheet

Lowell is a mosaic-style natural stone veneer subject to heavy color variation. The stone can range from a monochromatic grey to grey with heavy tans and browns. The colors can vary from one production run to the next, therefore, it is important to check with us ahead of time to see the current colors. The stones all come from the same quarry as well as the general area within the quarry, but the colorfulness is determined by how tightly packed the layers of stone are within the ground. Where the layers are tight, the stone comes out in semi-consistent grey tones because rainwater carrying minerals could not penetrate between the layers. Where the layers are loose, the groundwater settled between the layers and stained the stone with minerals over the centuries which gives the pieces the rich earth tones. Lowell is a split-back product and has not been sawn on the back with a diamond blade. This has no impact on installation or final appearance.

### Flats Dimensions

Heights: 4" - 12"  
Lengths: 4" - 18"  
Depths: ¾" - 1-½"  
Weight: 13 - 15 lb. per square foot

### Corner Dimensions

Heights: 4" - 12"  
Lengths: 3"-5" x 6"-12"  
Depths: ¾" - 1-½"  
Weight: 20 lb. per linear foot  
Angle: 90

### Stone Characteristics

Colors: Earthy Browns, Gold Tones, Grey Tones  
Style: Mosaic  
Finish: Natural

### Packaging

Sold as loose pieces.  
Flat Pallet: 150 square feet  
Corner Pallet: 50 linear feet

### Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
