

# OXFORD DIAMOND

## Product Information & Data Sheet

Oxford Diamond is predominately dark grey mosaic style natural stone veneer. The individual stones have some variation in color with occasional lighter greys and tans. Oxford Diamond is aptly named as the stones have a small hint of shine when the sun hits them. This is a split back product due to the approximately 1" layers in the quarry. A split or natural back as masons call it has no impact on the installation or final appearance. Oxford Diamond is one of our most affordable premium natural thin stone veneer options due to the decreased production cost of not sawing the back of the stone with a diamond blade.

### Flats Dimensions

Heights: 4" - 12"

Lengths: 4" - 18"

Depths: ¾" - 1-½"

Weight: 13 - 15 lb. per square foot

### Corner Dimensions

Heights: 4" - 12"

Lengths: 3"-5" x 6"-12"

Depths: ¾" - 1-½"

Weight: 20 lb. per linear foot

Angle: 90

### Stone Characteristics

Colors: Grey Tones

Style: Mosaic

Finish: Natural

### Packaging

Sold as loose pieces.

Flat Pallet: 150 square feet

Corner Pallet: 50 linear feet

### Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

### LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

### Installation

Natural thin stone veneer installation information is available on our website:
