

# QUEEN CREEK

## Product Information & Data Sheet

Queen Creek is one of our best-selling natural thin stone veneers. The stone achieves a balance of visually interesting color and pleasing neutrality. Queen Creek's grey undertones make it a neutral and versatile stone option to match with log, stucco, or siding colors. The stone is a split back veneer and has not been sawed on the back with a diamond blade. The natural back has no impact on the installation or final appearance. Queen Creek is subject to more variation than most of our other natural stone veneers; some production runs are more consistently grey and some are more colorful. It is best to check with us ahead of placing an order to see the current batch.

### Flats Dimensions

Heights: 2" - 8"

Lengths: 4" - 18"

Depths: 3/4" - 1 1/2"

Weight: 13 - 15 lb. per square foot

### Corner Dimensions

Heights: 2" - 8"

Lengths: 3"-5" x 8"-12"

Depths: 3/4" - 1-1/2"

Weight: 20 lb. per linear foot
