

# SEDONA

## Product Information & Data Sheet

Sedona is a classic earth tone fieldledge style real stone veneer. The stone is a great example of the traditional fieldledge style which consists of linear and mosaic pieces. Sedona has an old-world look as it has only been minimally processed. With the exception of the sawn back to create the thin veneer, the only other production process is splitting the stone with a hydraulic press to create the linear pieces. Sedona has beautiful and unique textures within the pieces ranging from very smooth to extra coarse. The natural stone veneer fits perfectly with any southwest or rustic design style.

### Flats Dimensions

Heights: 2" - 10"

Lengths: 4" - 18"

Depths: 3/4" - 1-1/2"

Weight: 13 - 15 lb. per square foot

### Corner Dimensions

Heights: 2" - 10"

Lengths: 3"-5" x 8"-12"

Depths: 3/4" - 1-1/2"

Weight: 20 lb. per linear foot

Angle: 90

### Stone Characteristics

Colors: Earthy Browns, Gold Tones

Style: Fieldledge

Finish: Natural

### Packaging

Sold as loose pieces.

Flat Pallet: 150 square feet

Corner Pallet: 50 linear feet

### Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

### LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

### Installation

Natural thin stone veneer installation information is available on our website:
