

SHADOW VISTA

Product Information & Data Sheet

Shadow Vista is a natural low height ledgerstone thin veneer in shades of grey and light black. The real stone veneer predominantly showcases the interior part or split face of the stone that is exposed during processing with a hydraulic press. For consistency, our mock-up shows the stone with a half-inch gray mortar joint, however, Shadow Vista is a designer favorite for drystacking. With a drystack, tight fit, or mortarless installation, you can expect the waste factor and installation cost to increase substantially. The installation cost of drystacking is due to the cost of labor for field trimming by your mason which makes the pieces fit perfectly together.

Flats Dimensions

Heights: 1" - 5"
Lengths: 4" - 12"
Depths: ¾" - 1-½"
Weight: 13 - 15 lb. per square foot

Stone Characteristics

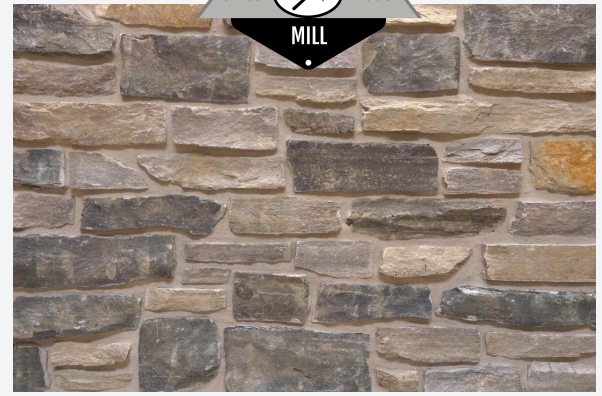

Colors: Grey Tones
Style: Ledgerstone
Finish: Natural

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

Natural stone varies in color, shape and veining from piece to piece. Photos used are meant to be as accurate as possible in depicting the product. Photos of stone are meant to give a general idea but should not be used for exact color matching.

LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

Installation

Natural thin stone veneer installation information is available on our website:
