

SHELTON

Product Information & Data Sheet

Shelton is a beautiful and economical mosaic style real stone veneer. It showcases a pleasing blend of dark and light grey pieces with an occasional tan or light brown piece. Shelton is a natural or split back thin veneer and has not been sawn with a diamond blade. The natural back will have no impact on the installation or final appearance. We are able to split rather than saw the backs of the Shelton stones due to the unique and consistent layering of the quarry. The split back reduces our production costs and makes Shelton one of the most affordable and cost-effective premium options we offer.

Flats Dimensions

Heights: 4" - 12"

Lengths: 4" - 18"

Depths: ¾" - 1-½"

Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 4" - 12"

Lengths: 3"-5" x 6"-12"

Style: Mosaic

Finish: Natural

Packaging

Sold as loose pieces.

Flat Pallet: 150 square feet

Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

Installation

Natural thin stone veneer installation information is available on our website:
