

SHORELINE

Product Information & Data Sheet

Shoreline is an irregular mosaic style real thin stone veneer. The stone has a pleasing blend of grey tones along with some rusty brown and tan tones. Shoreline achieves a nice balance of neutral and colorful tones. The stone is neither monochromatic nor overly loud with color variation. Shoreline is a natural or split back product that has not been sawn on the back with a diamond blade. The quarry where Shoreline is mined has consistent 1" thick layers which allow us to split the layers rather than saw them. The natural back has no impact on the installation or final appearance. Shoreline is one of the most cost-effective premium stones we have.

Flats Dimensions

Heights: 4" - 12"

Lengths: 4" - 18"

Depths: 3/4" - 1-1/2"

Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 4" - 12"

Lengths: 3"-5" x 6"-12"

Depths: 3/4" - 1-1/2"

Weight: 20 lb. per linear foot

Angle: 90

Stone Characteristics

Colors: Earthy Browns, Grey Tones

Style: Mosaic

Finish: Natural

Packaging

Sold as loose pieces.

Flat Pallet: 150 square feet

Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

Installation

Natural thin stone veneer installation information is available on our website:
