

SIERRA VISTA

Product Information & Data Sheet

Sierra Vista is an eye-catching mosaic style natural thin stone veneer. The stones' colors consist of shades of browns, tans, golds, greys, and blacks. Sierra Vista is a natural blend of stones that all come from the same mountain. Each color is quarried at a different elevation. The mineral compositions change at varying elevations which gives the stones their colors. If you have been hiking in the mountains, you may have noticed the rocks you walk on change colors as you get higher. This can be more apparent if you see an exposed cliff or rock face. The pieces are all irregular and natural shapes showcasing the stones exactly as they come off the mountain and as nature intended.

Flats Dimensions

Heights: 4" - 12"
Lengths: 4" - 18"
Depths: ¾" - 1-½"
Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 4" - 12"
Lengths: 3"-5" x 6"-12"
Depths: ¾" - 1-½"
Weight: 20 lb. per linear foot
Angle: 90

Stone Characteristics

Colors: Earthy Browns, Gold Tones, Grey Tones
Style: Mosaic
Finish: Natural

Packaging

Sold as loose pieces.
Flat Pallet: 150 square feet
Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
