

TUCSON

Product Information & Data Sheet

Tucson is a warm and colorful natural ledgestone veneer. The stone has a great depth of color with shades of grey and gold along with a range of soft rust tones. The thin veneer is cut with a diamond blade from larger pieces of quarried stone to a depth of approximately 1.25". For consistency, we show Tucson with a half-inch grey mortar joint, however, this stone can also be installed with a drystack installation. This tight fit or mortarless installation gives Tucson a unique old-world look. The individual pieces contrast and complement each other nicely due to the natural color variation.

Flats Dimensions

Heights: 1" - 5"
Lengths: 4" - 12"
Depths: ¾" - 1-½"
Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 1" - 5"
Lengths: 3"-5" x 6"-12"
Depths: ¾" - 1-½"
Weight: 20 lb. per linear foot
Angle: 90

Stone Characteristics

Colors: Copper Tones, Gold Tones, Grey Tones
Style: Ledgestone
Finish: Natural

Packaging

Sold as loose pieces.
Flat Pallet: 150 square feet
Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
