

AURORA

Product Information & Data Sheet

Aurora real stone veneer is a natural east coast fieldstone. The stone originates from the farm fields of northeastern Pennsylvania and southern New York. As the land was cleared by early settlers and the fields plowed the stone was stacked in rows along property lines. The raw stone is hand-picked by our team. Aurora is a mix of the smaller linear ledge type pieces and larger irregular shaped "plates" of stone. The natural fieldstone has a soft look from years of weathering and environmental exposure. Some pieces of the thin stone may also have moss and lichen growth on them.

Flats Dimensions

Heights: 2" - 10"

Lengths: 4" - 18"

Depths: 3/4" - 1-1/2"

Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 2" - 10"

Lengths: 3"-5" x 8"-12"

Depths: 3/4" - 1-1/2"

Weight: 20 lb. per linear foot

Angle: 90

Stone Characteristics

Colors: Earthy Browns

Style: Fieldledge

Finish: Natural

Packaging

Sold as loose pieces.

Flat Pallet: 150 square feet

Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

Installation

Natural thin stone veneer installation information is available on our website:
