

BELVEDERE

Product Information & Data Sheet

Belvedere is a castle rock style thin stone veneer with shades of beiges, golds and soft browns. The stones have a nice variety of textures ranging from smooth to extra course. Belvedere is a natural midwest quarried limestone. The stone is sold as individual pieces allowing the mason flexibility to add their personal touch to the project. The large pieces and relaxing neutral tones have made Belvedere the choice for grand estates. The stone has the old countryside look and doesn't get "busy" on large scale projects.

Flats Dimensions

Heights: 2" - 12"
Lengths: 4" - 18"
Depths: ¾" - 1-½"
Weight: 13 - 15 pounds

Corner Dimensions

Angle: 90 degrees
Heights: 2" - 8"
Lengths: 3"-5" x 8"-12"
Depths: ¾" - 1-½"
Weight: 20 pounds per linear foot

Stone Characteristics

Colors: Gold Tones, Natural Tones
Style: Castle Rock
Finish: Natural

Packaging

Sold as loose pieces.
Flat Pallet: 100 square feet
Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

Installation

Natural thin stone veneer installation information is available on our website:
