

BELVEDERE

Product Information & Data Sheet

Belvedere is a natural limestone thin veneer cut into the castle rock style. The stone is a popular choice due to its classic limestone appearance. It showcases neutral colors with a full range of tans, golds, and some mineral-stained brown pieces.

Belvedere is a castle rock style stone however, it doesn't form as clean of rectangles when split as some of the other castle rocks. This is due to the natural grain of the stone and gives Belvedere a more rustic and timeless look. Belvedere has an unusually rough texture, which also comes from the natural grain within the limestone.

Flats Dimensions

Heights: 2" - 12"
Lengths: 4" - 18"
Depths: ¾" - 1-½"
Weight: 13 - 15 lb. per square foot

Stone Characteristics

Colors: Gold Tones, Natural Tones
Style: Castle Rock
Finish: Natural

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
