

BRIDGEPORT

Product Information & Data Sheet

Bridgeport is a stately New England granite natural stone veneer in an old-world mosaic pattern. The stone has a depth of speckled colors that can only be found in natural granite. The black and white tones within the individual pieces create a salt and pepper look. Some pleasing soft tan tones round out the color palette of this neutral and versatile natural stone veneer.

Bridgeport's consistent course and rugged textures run throughout every piece of stone. The irregular shapes with natural edges (not split or sawn) allow your mason to create a spider web-like pattern. The mosaic style is also referred to as webwall.
