

# CATALINA

## Product Information & Data Sheet

Catalina is a natural thin cut veneer stone with a vivid mix of colors. The colors are a mix of browns and tans with an occasional pink hue. Catalina is a blend of the different faces of the stone as it is quarried. The dark brown pieces have some weathering on them from being exposed to the elements. The lighter tans with some natural veining showcase the interior part of the stone or what is called the split-face. Split-face stone comes from splitting the stone with a hydraulic press. Catalina's broad color range makes it a versatile option when incorporating other architectural elements.

### Flats Dimensions

Heights: 2" - 10"  
Lengths: 4" - 18"  
Depths: ¾" - 1-½"  
Weight: 13 - 15 lb. per square foot

### Corner Dimensions

Heights: 2" - 10"  
Lengths: 3"-5" x 8"-12"  
Depths: ¾" - 1-½"  
Weight: 20 lb. per linear foot  
Angle: 90

### Stone Characteristics

Colors: Copper Tones, Earthy Browns  
Style: Fieldledge  
Finish: Natural

### Packaging

Sold as loose pieces.  
Flat Pallet: 150 square feet  
Corner Pallet: 50 linear feet

### Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
