

HILLSBOROUGH

Product Information & Data Sheet

Hillsborough is a colorful and versatile natural stone veneer. The finished product is a stone blend we create in house by combining split-face quarried stone with natural hand-picked fieldstone. Mixing stones to create a custom blend adds color and texture variations to the finished product. The split-face or machine-cut pieces are the linear tan pieces with occasional veining. These pieces are broken with a hydraulic press. They create a beautiful contrast to the more rustic and darker colored fieldstone. The fieldstone pieces get their darker tones from years of exposure to the elements.

LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

Installation

Natural thin stone veneer installation information is available on our website:

Lengths: 4" - 18"
Depths: $\frac{3}{4}$ " - $1\frac{1}{2}$ "
Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 2" - 8"
Lengths: 3"-5" x 8"-12"
Depths: $\frac{3}{4}$ " - $1\frac{1}{2}$ "
Weight: 20 lb. per linear foot
Angle: 90

Stone Characteristics

Colors: Copper Tones, Earthy Browns
Style: Ashlar
Finish: Natural

Packaging

Sold as loose pieces.
Flat Pallet: 150 square feet
Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
