

HUDSON

Product Information & Data Sheet

Hudson is a real stone veneer with a pleasing and neutral blend of earthy brown and grey tones. The finished thin stone is a blend of natural stones quarried and handpicked around our cut shop. The predominant darker colors are the brown and tans coming from the handpicked fieldstone. The fieldstone has a rough and rustic look which comes from years of exposure to the elements. The darker tones of the fieldstone are offset but the neutral grey split face style linear pieces. The clean and consistent grey pieces come from the interior part of the stone with no mineral staining as rainwater cannot penetrate the slabs of natural stone.
