

# LARGO

## Product Information & Data Sheet

Largo is a colorful real stone veneer that creates a statement on any project. The stone has significant variation in color that is eye-catching and almost clashing at first glance. Upon further inspection and taking a step back, the stone softens and the pieces fit together as nature intended. Largo falls into the ashlar style category, however, there is not much variation in the heights of the standard product. The similar heights allow Largo to be installed in rows or what your mason may refer to as running bond or course height. Upon request, larger custom castle rock style pieces can be added to the mix to create variation in the sizes.

### Flats Dimensions

Heights: 2" - 8"  
Lengths: 4" - 18"  
Depths: ¾" - 1½"  
Weight: 13 - 15 lb. per square foot

### Corner Dimensions

Heights: 2" - 8"  
Lengths: 3"-5" x 8"-12"  
Depths: ¾" - 1-½"  
Weight: 20 lb. per linear foot  
Angle: 90

### Stone Characteristics

Colors: Gold Tones, Grey Tones, Natural Tones  
Style: Ashlar  
Finish: Natural

### Packaging

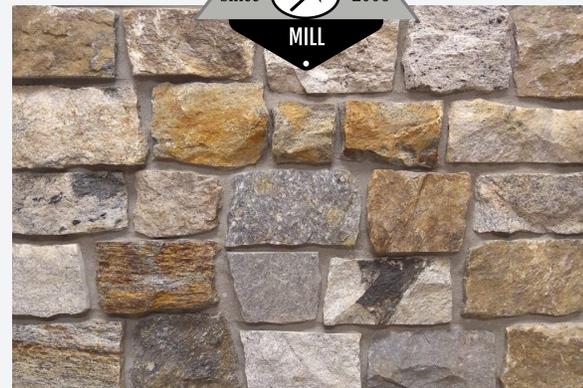

Sold as loose pieces.  
Flat Pallet: 150 square feet  
Corner Pallet: 50 linear feet

### Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
