

# LIBERTY

## Product Information & Data Sheet

Liberty is a real thin bluestone veneer cut into the dimensional style. The stone showcases blue-grey or gunmetal tones. It is the consistent texture of the stone that makes Liberty unique from our other natural stone veneer offerings. Liberty starts as large blocks of stone that are cut from the quarry. Then, the large blocks are cut on a gantry or gang saw (multi-blade) in 1" thickness; this process leaves the pieces of stone with a smooth sawn finish on both sides. The outer surface is treated with a flamed or thermal finish which comes from running a torch over the stone. The extreme heat causes the top of the stone to pop ever so slightly making a very soft pimpled texture.

NOTE: 90-degree corners are not available, on the corners overlap and interlock the flat pieces.

### Flats Dimensions

Heights: 2- $\frac{1}{4}$ ", 5", 7- $\frac{3}{4}$ "

Lengths: 4" - 16"

Depths:  $\frac{3}{4}$ " - 1- $\frac{1}{2}$ "

Weight: 13 - 15 lb. per square foot

### Stone Characteristics

Colors: Grey Tones, Sky Tones

Style: Dimensional

Finish: Natural

### Packaging

Sold as loose pieces.

Flat Pallet: 150 square feet

### Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

### LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

### Installation

Natural thin stone veneer installation information is available on our website:
