

# NORFOLK

## Product Information & Data Sheet

Norfolk natural stone veneer showcases the beautiful tones of machine cut bluestone. This low height natural ledgerstone has greys, blues, gunmetal, soft tans and hints of lavender. Showcasing only the interior part of the natural stone, this thin stone veneer has a mostly smooth texture. Some pieces have a rippled or uneven texture where they did not split cleanly apart; this adds character making each of the pieces unique. Norfolk is shown here with a standard half inch grey raked mortar joint. The stone can also be drystacked relatively easily due to the consistency of the naturally straight pieces.

### Flats Dimensions

Heights: 1" - 5"  
Lengths: 4" - 12"  
Depths: ¾" - 1-½"  
Weight: 13 - 15 lb. per square foot

### Stone Characteristics

Colors: Sky Tones  
Style: Ledgerstone  
Finish: Natural

### Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
