

# POLAR SPRINGS

## Product Information & Data Sheet

Polar Springs natural stone veneer contains a narrow range of grays, mostly medium to light shades. These colors bring a very earthy feel to your home. The random shapes combined with Polar Springs stone's consistent textures make it a great addition to any project. This thin stone veneer is a natural limestone in a mosaic pattern. The irregular shapes give any project an old world feel. The stone is shown here with a half inch grey raked mortar joint but uses a flush mortar joint in the application photos of the cafe. Old world stones' like Polar Springs lend themselves to flush or overgrout mortar techniques taking you back to a time when stone was used structurally.

### Flats Dimensions

Heights: 4" - 12"  
Lengths: 4" - 18"  
Depths: ¾" - 1-½"  
Weight: 13 - 15 lb. per square foot

### Corner Dimensions

Heights: 4" - 12"  
Lengths: 3"-5" x 6"-12"  
Depths: ¾" - 1-½"  
Weight: 20 lb. per linear foot  
Angle: 90

### Stone Characteristics

Colors: Grey Tones  
Style: Mosaic  
Finish: Natural

### Packaging

Sold as loose pieces.  
Flat Pallet: 150 square feet  
Corner Pallet: 50 linear feet

### Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
