

PORTLAND

Product Information & Data Sheet

Portland is a castle rock style natural gneiss thin stone veneer. The stone gets its character from closely woven and deeply pronounced grains. The colors are mostly shades of grey and beige with an occasional darker earthy brown. The stone has a relatively smooth and natural texture. The large blocky rectangular pieces have been split on four sides with a hydraulic press. The castle rock stone style is also called squares and recs or square-rec for short. Portland is a top of the line thin stone perfectly suited for grand exterior applications.

Flats Dimensions

Heights: 2" - 12"

Lengths: 4" - 18"

Depths: ¾" - 1-½"

Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 2" - 8"

Lengths: 3"-5" x 8"-12"

Depths: ¾" - 1-½"

Weight: 20 lb. per linear foot

Angle: 90

Stone Characteristics

Colors: Earthy Browns, Grey Tones

Style: Castle Rock

Finish: Natural

Packaging

Sold as loose pieces.

Flat Pallet: 150 square feet

Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

Installation

Natural thin stone veneer installation information is available on our website:
