

ROUSHAM

Product Information & Data Sheet

Rousham is a natural full-color bluestone sawn into set heights to create a dimensional thin stone veneer. The stone is referred to as “full color” but the color variation is ultimately quite subtle. Rousham is predominantly blue/grey and gunmetal with an occasional soft brown. The texture is what is called natural cleft and ranges from smooth to slightly rippled. Natural cleft is exactly as it sounds with the pieces retaining their texture as they are quarried. This stone is a natural back meaning it comes out of the ground at a thickness of 1". The back is not sawn with a diamond blade. This has no effect on the installation or final appearance.

NOTE: 90-degree corners are not available, on the corners overlap and interlock the flat pieces.

Flats Dimensions

- Heights: 2-¼", 5", 7-¾"
- Lengths: 4" - 16"
- Depths: ¾" - 1-½"
- Weight: 13 - 15 lb. per square foot

Stone Characteristics

- Colors: Sky Tones
- Style: Dimensional
- Finish: Natural

Packaging

- Sold as loose pieces.
- Flat Pallet: 150 square feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
