

# SAVANNAH

## Product Information & Data Sheet

Savannah is a natural stone veneer blend that we create in house. The blend was initially created by our shop foreman between production runs of other stones. Our shop foreman creatively put the different sizes and colors of our natural stone veneer products together and the Savannah product came to life. The stone is considered an ashlar style with its linear medium size pieces, however, there are also some larger castle rock style rectangles in the mix. The stone blend showcases not only fieldstone and quarried stone but multiple faces of the quarried stone. This mix gives Savannah a great range of color and texture without feeling overly busy.

### Flats Dimensions

Heights: 2" - 8"  
Lengths: 4" - 18"  
Depths: ¾" - 1½"  
Weight: 13 - 15 lb. per square foot

### Corner Dimensions

Heights: 2" - 8"  
Lengths: 3"-5" x 8"-12"  
Depths: ¾" - 1-½"  
Weight: 20 lb. per linear foot  
Angle: 90

### Stone Characteristics

Colors: Copper Tones, Earthy Browns, Grey Tones  
Style: Ashlar  
Finish: Natural

### Packaging

Sold as loose pieces.  
Flat Pallet: 150 square feet  
Corner Pallet: 50 linear feet

### Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
