

WINFIELD

Product Information & Data Sheet

Winfield is a natural limestone veneer with a tumbled finish. This thin stone veneer has the beautiful colors of traditional limestone. The colors range from predominately gold/yellow to buff and off-white with an occasional light brown. Through the tumbling process, the colors are softly muted, adding a unique charm to the stone.

Winfield is considered a castle rock style with some larger rectangular stone pieces, but it is more rough cut with irregular edges than our other castle rock style stones. The irregular edges allow your mason to install the stone in a mosaic pattern if desired.

Flats Dimensions

Heights: 2" - 12"
Lengths: 4" - 18"
Depths: ¾" - 1-½"
Weight: 13 - 15 lb. per square foot

Stone Characteristics

Colors: Gold Tones, Natural Tones
Style: Castle Rock
Finish: Tumbled

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
