

# WOODSIDE

## Product Information & Data Sheet

Woodside is a natural granite thin stone veneer in the castle rock or square-rec style. The stone consists of several rectangular sizes with heights from 4"-12" and random squared edges. The stone is a natural granite with almost peachy beiges, subtle marbling, and much darker browns. Woodside showcases a beautiful weathered finish.

&nbsp;

Woodside is a great choice when creating a staggered layout that retains a natural look. Due to the larger sizes of the pieces, this stone works great on large-scale exterior projects. Castle rock-style stones like Woodside are almost always installed with a mortar joint between the pieces of stone.

&nbsp;

### Flats Dimensions

Heights: 2" - 12"  
Lengths: 4" - 18"  
Depths: ¾" - 1-½"  
Weight: 13 - 15 lb. per square foot

### Corner Dimensions

Heights: 2" - 8"  
Lengths: 3"-5" x 8"-12"  
Depths: ¾" - 1-½"  
Weight: 20 lb. per linear foot  
Angle: 90

### Stone Characteristics

Colors: Earthy Browns, Gold Tones, Grey Tones  
Style: Castle Rock  
Finish: Natural

### Packaging

Sold as loose pieces.  
Flat Pallet: 150 square feet  
Corner Pallet: 50 linear feet

### Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
