

GLENDALE

Product Information & Data Sheet

Glendale is a natural limestone veneer in the classic ashlar style. The veneer is cut from dolomitic limestone quarried on the Niagara Escarpment. This dolomitic limestone is renowned for its durability and longevity. Waste stone created in the process of making this thin veneer is the primary choice for DOT gravel. The veneer itself is a blend of stone from two neighboring quarries. Although separated by mere miles, the changes in color are incredible with one quarry producing the greys and the other contributing the buffs and tans. The tops and bottoms of the pieces are unaltered creating a beautiful rough ashlar style.

Flats Dimensions

Heights: 2" - 8"
Lengths: 4" - 18"
Depths: ¾" - 1½"
Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 2" - 8"
Lengths: 3"-5" x 8"-12"
Depths: ¾" - 1-½"
Weight: 20 lb. per linear foot
Angle: 90

Stone Characteristics

Colors: Gold Tones, Grey Tones, Natural Tones
Style: Ashlar
Finish: Natural

Packaging

Sold as loose pieces.
Flat Pallet: 150 square feet
Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
