

# LISBON

## Product Information & Data Sheet

Lisbon is a classic and warm natural thin cut limestone veneer. The thin veneer shows both the interior and exterior parts of the limestone slabs. The interior part of the stone is called machine cut or split face within the masonry industry. The name comes from the process of splitting the stone with a hydraulic press. We also use the hydraulic press to create the rough rectangles from the exterior faces of the slab. Lisbon falls into the ashlar or random ashlar pattern. The pieces are medium-sized and linear with some larger castle rock style pieces which provide size variation.

### Flats Dimensions

Heights: 2" - 8"

Lengths: 4" - 18"

Depths: ¾" - 1½"

Weight: 13 - 15 lb. per square foot

### Corner Dimensions

Heights: 2" - 8"

Lengths: 3"-5" x 8"-12"

Depths: ¾" - 1-½"

Weight: 20 lb. per linear foot

Angle: 90

### Stone Characteristics

Colors: Gold Tones, Grey

Tones, Natural Tones

Style: Ashlar

Finish: Natural

### Packaging

Sold as loose pieces.

Flat Pallet: 150 square feet

Corner Pallet: 50 linear feet

### Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

### LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

### Installation

Natural thin stone veneer installation information is available on our website:
