

MONTEREY

Product Information & Data Sheet

Monterey natural stone veneer is a colorful blend of shapes, colors, and textures. This beautiful blend of stones comes from three different quarries. One quarry produces the lighter tones, the second produces the gunmetal or charcoal pieces, and the last quarry produces the stones with the hints of red. Monterey falls into the fieldledge style due to its blend of linear and irregular mosaic style pieces. It is a fantastic choice if you are looking to create an old-world cottage feel. The stone has a rustic feel but is very versatile. Our customers have used this product on lakeside cabins and suburban residences alike.
