

REEDLEY

Product Information & Data Sheet

Reedley natural stone veneer is a beautiful castle rock style granite with deep and rich veining. The natural granite is split with a hydraulic press into rectangles that form the castle rock pattern. This product showcases the interior part of the stone or what your mason may refer to as split face. Reedley is unique in that it has an unusual amount of color variation for a granite. Granites are typically one main color with black speckles and veining. Reedley, in contrast, has both silver and gold base tones occurring naturally next to each other with rich veining.

LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

Installation

Natural thin stone veneer installation information is available on our website:

Lengths: 4" - 18"
Depths: $\frac{3}{4}$ " - 1 $\frac{1}{2}$ "
Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 2" - 8"
Lengths: 3"-5" x 8"-12"
Depths: $\frac{3}{4}$ " - 1 $\frac{1}{2}$ "
Weight: 20 lb. per linear foot
Angle: 90

Stone Characteristics

Colors: Earthy Browns, Gold Tones, Grey
Tones
Style: Castle Rock
Finish: Natural

Packaging

Sold as loose pieces.
Flat Pallet: 150 square feet
Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
