

MARSEILLE

Product Information & Data Sheet

Marseille is a natural ashlar style thin cut stone. The stones have beautiful color variation and a great deal of veining. Marseille has a colorful mix of greys, golds, and earthy browns. The stone is shown here with a half-inch mortar joint but can also be drystack. Drystack installation makes the colors pop as there is no mortar between the pieces and they contrast one another more. Marseille has some beautiful large-sized pieces that fall between an ashlar and castle rock style stone. The stones are split back or what is referred to as natural back in the stone industry; they have not been sawn with the diamond blade. This will have no impact on the installation or final appearance.

LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

Installation

Natural thin stone veneer installation information is available on our website:

Flats Dimensions

Heights: 2" - 8"
Lengths: 4" - 18"
Depths: $\frac{3}{4}$ " - 1 $\frac{1}{2}$ "
Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 2" - 8"
Lengths: 3"-5" x 8"-12"
Depths: $\frac{3}{4}$ " - 1 $\frac{1}{2}$ "
Weight: 20 lb. per linear foot
Angle: 90

Stone Characteristics

Colors: Earthy Browns, Gold Tones, Grey
Tones
Style: Ashlar
Finish: Natural

Packaging

Sold as loose pieces.
Flat Pallet: 150 square feet
Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
