

# EDISON

## Product Information & Data Sheet

Edison is a tumbled ashlar style natural limestone veneer with sawn edges. It pairs the sawn edges of dimensional stone and natural sizes of ashlar stone to create a beautiful, formal, and classic product. Although many of the stone pieces have sawn edges, they are not cut to specific sizes as is typical of dimensional style stone. Ashlar style stone allows your mason to use their own artistic skills to influence the final look. This stone has a more formal and stately feel due to the sawn pieces. Edison is a neutral mix of natural and grey tones. Between the colors, shapes, and tumbled finish, Edison is a classic and timeless stone great for any project.

### Flats Dimensions

Heights: 2" - 8"  
Lengths: 4" - 18"  
Depths: ¾" - 1½"  
Weight: 13 - 15 lb. per square foot

### Corner Dimensions

Heights: 2" - 8"  
Lengths: 3"-5" x 8"-12"  
Depths: ¾" - 1-½"  
Weight: 20 lb. per linear foot  
Angle: 90

### Stone Characteristics

Colors: Grey Tones, Natural Tones  
Style: Ashlar  
Finish: Tumbled

### Packaging

Sold as loose pieces.  
Flat Pallet: 150 square feet  
Corner Pallet: 50 linear feet

### Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
