

# IRVINE

## Product Information & Data Sheet

Irvine is a natural mosaic style quartzite thin veneer that shines and sparkles in the sun. The stone is completely natural but almost appears to have a glossy finish. Irvine is a mix of gold and silver tones with relatively smooth textures. The stone is a natural or split back product meaning it has not been sawn on the back. The quarry from which Irvine is extracted is naturally layered in approximately 1" increments with beautiful smooth pieces. This natural or split back has no impact on the installation or final appearance. The price point reflects our reduced production cost making Irvine an unbeatable value.

NOTE: 90-degree corners are not available, on the corners overlap and interlock the flat pieces.

---

### Flats Dimensions

Heights: 4" - 12"

Lengths: 4" - 18"

Depths: ¾" - 1-½"

Weight: 13 - 15 lb. per square foot

### Stone Characteristics

Colors: Gold Tones, Grey Tones, Natural Tones

Style: Mosaic

Finish: Natural

### Packaging

Sold as loose pieces.

Flat Pallet: 150 square feet

### Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
