

# BARCELONA

## Product Information & Data Sheet

Barcelona is a dimensional cut natural thin stone veneer in shades of white and off-white. The stone is cut to heights of 2.25", 5", and 7.75" with random lengths up to 18" and an average thickness of 1.25".

Barcelona's neutral colors make it a versatile design choice. The dimensional stone can add to the clean lines of modern design or be incorporated in centuries' old buildings. Barcelona is not tumbled in the traditional sense but has a soft and approachable texture. Barcelona is a premium natural stone veneer that we import from overseas. We have the stone in stock in 200 square foot pallets ready to ship.
