

CARSON PASS

Product Information & Data Sheet

Carson Pass is a fieldledge style natural thin stone veneer with an impressive depth of color. The stone has an abundance of natural mineral staining and lichen growing on the individual pieces. Upon close inspection Carson Pass almost appears to have been painted due to the vibrant colors, however, the colors are a completely natural occurrence. There are two types of lichen present on the stone. The first type provides some of the black tones and the second type gives more grey tones. The grey lichen is less abundant and almost looks as if mortar was accidentally splashed on the stone.

Flats Dimensions

Heights: 2" - 10"

Lengths: 4" - 18"

Depths: 3/4" - 1-1/2"

Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 2" - 10"

Lengths: 3"-5" x 8"-12"

Depths: 3/4" - 1-1/2"

Weight: 20 lb. per linear foot

Angle: 90

Stone Characteristics

Colors: Copper Tones,
Earthy Browns, Grey Tones,
Natural Tones

Style: Fieldledge

Finish: Natural

Packaging

Sold as loose pieces.

Flat Pallet: 150 square feet

Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

Installation

Natural thin stone veneer installation information is available on our website:
